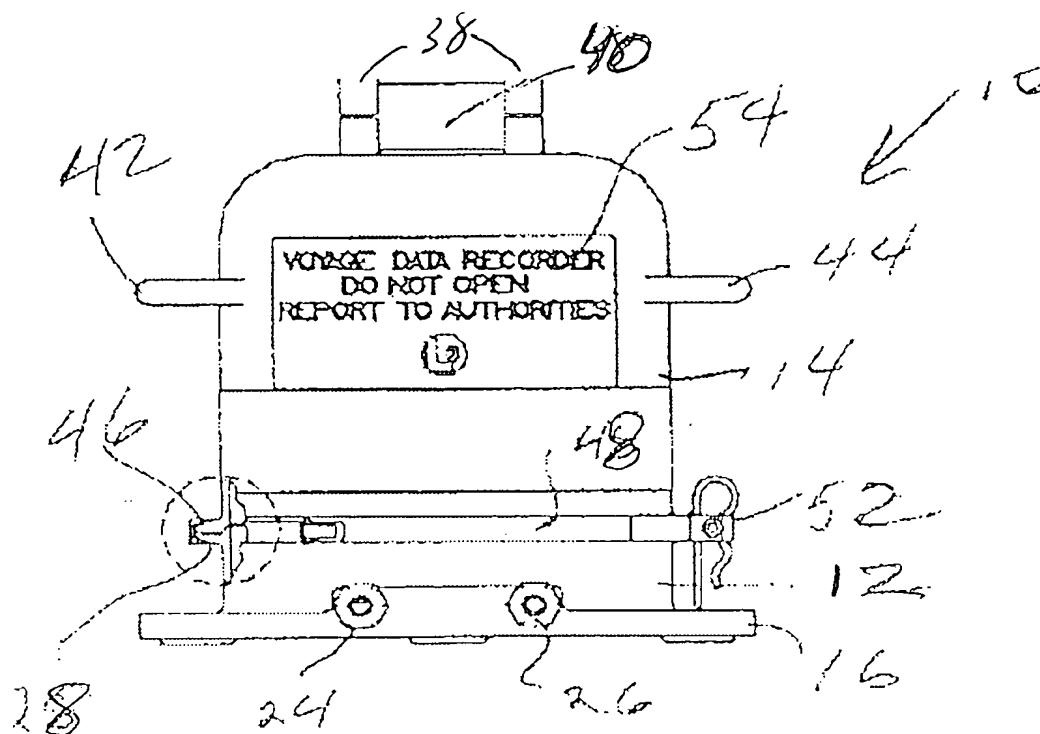

Figure 2

A hand-drawn schematic diagram of a mechanical component, possibly a valve or a plug. The component has a generally rectangular shape with rounded top corners. A horizontal slot or channel is cut through the center. A vertical dashed line, labeled 'A' at both the top and bottom, represents a plane of symmetry. The number '14' is written in the lower central area, and '16' is written at the bottom right corner, likely indicating different parts or views of the assembly.
